

will serve a more desirable use of appropriated funds. In making this determination, we will consider:

- (i) The types of vessels which will be built by the shipyard,
- (ii) The productivity increases which will be achieved,
- (iii) The geographic location of the shipyard,
- (iv) The long-term viability of the shipyard,
- (v) The soundness of the financial transaction,
- (vi) Any financial impact on other Title XI transactions, and
- (vii) The furtherance of the goals of the Shipbuilding Act.

§ 298.19 Financing Eligible Export Vessels.

(a) *Notification to Secretary of Defense.*

(1) We will provide prompt notice of our receipt of an application for a loan Guarantee for an Eligible Export Vessel to the Secretary of Defense.

(2) During the 30-day period, beginning on the date on which the Secretary of Defense receives such notice, the Secretary of Defense may disapprove the loan guarantee if the Secretary of Defense makes an assessment that the Vessel's potential use may cause harm to United States national security interests.

(3) The Secretary of Defense may not disapprove a loan Guarantee under this section solely on the basis of the type of vessel to be constructed with the loan Guarantee. The authority of the Secretary of Defense to disapprove a loan Guarantee under this section may not be delegated to any official other than a civilian officer of the Department of Defense appointed by the President, by and with the advice and consent of the Senate. We will not approve a loan guarantee disapproved by the Secretary of Defense.

(b) *Vessel eligibility.* We may not approve a Guarantee for an Eligible Export Vessel unless:

(1) We find that the construction, reconstruction, or reconditioning of the Vessel will aid in the transition of United States shipyards to commercial activities or will preserve shipbuilding assets that would be essential in time of war or national emergency;

(2) The owner of the Vessel agrees with us that the Vessel shall not be transferred to any country designated by the Secretary of Defense as a country whose interests are hostile to the interests of the United States; and

(3) We determine that the countries in which the shipowner, its charterers, guarantors, or other financial interests supporting the transaction, if any, have their chief executive offices or have located a substantial portion of their assets, present an acceptable financial or legal risk to our collateral interests. Our determination will be based on confidential risk assessments provided by the Inter-Agency Country Risk Assessment System and will take into account any other factors related to the loan guarantee transaction that we deem pertinent.

Subpart C—Guarantees

§ 298.20 Term, redemptions, and interest rate.

(a) *In general.* The maturity date of the Obligations must be satisfactory to us and must not exceed the anticipated physical and economic life of the Vessel or Vessels or Shipyard Project, and may be less than but no more than:

(1) Twenty-five years from the date of delivery from the shipbuilder of a single new Vessel which is to be security for Guarantees;

(2) Twenty-five years from the date of delivery from the shipyard of the last of multiple Vessels which are to be security for the Guarantees but that the amount of the Guarantees will relate to the amount of the depreciated actual cost of the multiple Vessels as of the Closing;

(3) The later of twenty-five years from the date of original delivery of a reconstructed, or reconditioned Vessel which is to be security for the Guarantees, or at the expiration of the remaining useful life of the Vessel, as we determine; or

(4) The technological life of the Shipyard Project.

(b) *Required redemptions.* Where multiple Vessels or multiple Shipyard Project assets are to be used as security for the Guarantees, as set forth in paragraph (a) of this section, we may require payments of principal prior to

§ 298.21

46 CFR Ch. II (10–1–02 Edition)

maturity (redemptions) regarding all related Obligations, as we may deem necessary to maintain adequate security for the Guarantees.

(c) *Interest rate.* We will make a determination as to the reasonableness of the interest rate of each Obligation, taking into account the range of interest rates prevailing in the private market for similar loans and the risks that we assume.

§ 298.21 Limits.

(a) *Actual Cost basis.* We will issue a guarantee on an amount of the Obligation satisfactory to us based on the economic soundness of the transaction. The Obligation amount may be less than but not more than 75 percent or 87½ percent, whichever is applicable, under the provisions of section 1104A(b)(2) or section 1104B(b)(2) of the Act of the Actual Cost of the Vessel or Vessels or Shipyard Project asset(s).

(1) If minimum horsepower of the main engine is a requirement for Guarantees up to 87½ percent of the Actual Cost, the standard for the horsepower will be continuous rated horsepower.

(2) Where we refinance existing debt, the amount of new Obligations we issue for the existing debt may not exceed the lesser of:

(i) The amount of outstanding debt being refinanced (whether or not receiving assistance under Title XI); or

(ii) Seventy-five or 87½ percent, whichever is applicable, of the Depreciated Actual Cost of the Vessel or Shipyard Project with respect to which the new Obligations are being issued.

(b) *Actual Cost items.* Actual Cost is comprised essentially of those items which would customarily be capitalized as Vessel or Shipyard Project construction costs such as designing, engineering, constructing (including performance bond premiums that we approve), inspecting, outfitting and equipping.

(1) Cost items include those items usually specified in Vessel or Shipyard Project construction contracts, *e.g.*, changes and extras, cost of owner furnished equipment, shoreside spare parts and commitment fees and interest on the Obligations or other borrowings incurred during the construction period (excluding interest paid on subordinated debt considered to be Eq-

uity), and less income realized from investment of Escrow Fund deposits during the construction period.

(2) Commissions (which represent a portion of the total shipyard contract price) may be included in the foreign equipment and services amount of the Actual Cost of an export project, provided:

(i) A majority of the work done by the parties receiving the commissions is in the form of design and engineering work, and

(ii) The commissions represent a small amount of the total contract price.

(3) You may include Guarantee Fees determined in accordance with the provisions of section 1104(e) of the Act as an item of Actual Cost.

(4) In approving an item of Actual Cost, we will consider all pertinent factors.

(c) *Items excludible from Actual Cost.* Actual Cost shall not include any other costs such as the following:

(1) Legal fees or expenses;

(2) Accounting fees or expenses;

(3) Commitment fees or interest other than those specifically allowed;

(4) Fees, commissions or charges for granting or arranging for financing;

(5) Fees or charges for preparing, printing and filing an application for Title XI Guarantees and supporting documents, for services rendered to obtain approval of the application and for preparing, printing and processing documents relating to the application for Guarantees;

(6) Underwriting or trustee's fees;

(7) Foreign, federal, state or local taxes, user fees, or other governmental charges;

(8) Investigation fee determined in accordance with section 1104(f) of the Act and § 298.15;

(9) Predelivery Vessel operating expenses, Vessel insurance premiums and other items which may not be properly capitalized by the owner as costs of the Vessel under GAAP;

(10) The cost of the condition survey required by § 298.11(f) and all work necessary to meet the standards set forth in that paragraph;

(11) The cost to the Shipowner of a Vessel which is to be reconstructed, or
